SDG1 No Poverty

1.3.2 Does your university as a body have graduation/completion targets for students who fall into the bottom 20% of household income group (or a more tightly defined target) in the country? (domestic)

Bottom Financial Quantile student success

The student advice and well-being (SAW) team at MUC has put a target that all students under this program should, by all means, finish their studies in time. MUC staff have saved no efforts and time to ensure that all low-income students under this program are successful. Also, the team is keen on scheduling constant meetings with the program students to track their overall progress, problems that they are facing and other concerns.
