

PARTICIPATION IN GOVERNMENT RESEARCH

DOES YOUR UNIVERSITY AS A BODY HAVE A PUBLICATION OF THE UNIVERSITY'S PRINCIPLES AND COMMITMENTS ON ORGANIZED CRIME, CORRUPTION & BRIBERY?

UNIVERSITY :

Al-Mustaqbal University College

COUNTRY :

Iraq

WEB ADDRESS :

<https://uomus.edu.iq/en/>

SDG 16.3.3:

Participation in government research

MUS comprises 21 departments: law, media, pharmacy, medical physics, management, medical laboratory, anesthesia techniques, dentistry, radiation techniques, nursing, optics techniques, administration, physical education, and sports sciences; English department; accounting; archaeology; air conditioning & refrigeration engineering; computer engineering; biomedical engineering; chemical and petroleum industries; medical instrument technology; and building and construction engineering.

All departments actively participate in government policy research projects to develop key policies or assist government departments in formulating policies and implementing strategies. Furthermore, the college is committed to several research cooperation agreements with government departments, to name a few:

1. Ministry of Water Resources, Babylon department.
2. Ministry of Health, Babylon department.
3. Ministry of Planning, Babylon department.
4. Ministry Electricity, Babylon department.
5. Ministry of Interior, Anti-drug department of Babylon province
6. Ministry of Agriculture, Babylon department.

Under these agreements, we are dedicated to providing scientific research to address difficulties encountered in their work when requested or without a request. In addition, the MUS assume all the costs of these studies submitted to the various departments.
