Public Events (lifelong learning)

Al-Mustaqbal University College has a number of occasions and events during the academic year where it opens its doors to the public: Public Lectures and community educational events.

One of the yearly major events is the hosting of Sustainability forums and which host guests, lectures, and workshops, with each year having different forums focused on Engineering, agriculture, energy, and Medical Technologies.

International Students Forum for Achieving SDGs.

The 2022 theme for example was tilted: The International Students Forum for Achieving SDGs. Workshops included ‘The Role of Universities in Achieving Sustainable Development Goals, Medical Waste within SDG3: Good Health, [Click here](#) It is considerable to note that Al-Mustaqbal University College is highly concerned about Solar Energy, and therefore a seminar has been arranged on “Applications of Solar Energy in Iraq: Reality & Challenges” Also, there have been a variety of activities performed by the College students with the Department of Physical Education and Sports Sciences having a distinguished role in performing these activities. Moreover, and amid the uproars of celebrating audience, colorful balloons carrying the titles of Sustainable Development Goals have been launched in the air as a sign of the College’s persistence to exert all efforts now and later to achieve these goals, the forum is also opened for the public [Click here](#).

International Exhibit for girls in the field of IT & communications

The Exhibit has been organized by the Students Activities Division with Career Center Unit at Al-Mustaqbal University College, there have been several workshops indeed on Entrepreneurship, Information Technology, and female students' projects at the Computer Techniques Engineering Department, which all lead to achieving Sustainable Development Goals. Besides, a competition among female students for their projects has been arranged, and the best have been selected and rewarded. The Exhibit aims in general to raise female representation in the field of Technology, creating gender equality in gaining opportunities in the related area.

It should be noted as well that a number of institutions, including the Vocational Preparatory School for Girls in Babylon, Al-Nisoor Primary School, Al-Mas Company, Aswar Company, the Industrialists Representative and many other leading companies have actively. The Exhibit has been appreciated and well received by everybody for the distinguished efforts to make IT available to everybody, thus building stronger communities and economies. [Click here](#)

The University also hosts multiple events offered to the public for exhibitions, Career Fair, concerts, Sports events and more.

MUS Career Fair

The Unit of Rehabilitation, Employment & Follow-Up organized the first annual career fairs 2022. All graduates and senior students are encouraged to participate in the fairs to join in the network with industry professionals. The fairs are excellent opportunities for both students and employers to meet one another, establish professional relationships, and discuss the potential job and/or internship opportunities. The Fair lasted for three days with the participation and attendance of 40 companies of both private and mixed sectors, including educational institutions. Besides, the College students played an effective role in the Fair by exhibiting their projects. It is remarkable to note that the Fair has been attended by the Governor of Babylon, the Parliament members, in addition to the representatives of the Ministry of Higher Education & Scientific Research, a number of Private Sector Companies, Private Banks, Exchange Companies, Tele-Communication, and other Community unions.
