Vocational Training Events (lifelong learning)

Al-Mustaqbal University College (MUC) has always been involved in hosting a number of events aimed locally and internationally to help get the maximum benefit from the trainings, both personally and professionally. The hosting of events supports vocational training including entrepreneurship in vocational Education, Engineering, Health and Medicine, Social Studies and Media, Computer Science, and IT.

Workshop supports 'Entrepreneurship in Vocational Education' (ad-hoc)

The Unit of Rehabilitation, Employment and Follow-up invites the students from the college to participate in the Intilaq competition 2022 to support medium and small enterprises, knowing that participation includes all disciplines and for different levels of study and graduates. This competition is part of the private sector development project funded by the German International Cooperation GIZ under the auspices of the Ministry of Higher Education and Scientific Research, with the participation of a group of Iraqi universities (38 universities from 15 Iraqi governorates) to compete for the best project with an innovative idea that can be implemented and funded, knowing that the winning project will be funded by the organization. Developing skills of medical laboratory workers (Programmed)

Medical Laboratories Techniques Department Hosted A training course titled 'Developing skills of medical laboratory workers' in cooperation with the Iraqi Chemical Syndicate, the course covers topics such as safety in the laboratory, quality control, and laboratory management and included several lectures and educational activities relating to the development of skills of medical laboratory workers and the importance of applying them. The course is delivered through a combination of classroom-based teaching and practical work in the laboratory. The course comes in the framework of the college's interest in providing educational, scientific, and Vocational Training opportunities for the public who works in the field of medical laboratories.
