

# AL- MUSTAQBAL UNIVERSITY COLLEGE

**Microsoft Word**

**By:**

Noor Razaq Al- Rubaie

**Lecture 6  
2022-2021**

# REFERENCE

---

## Reference List in Word:

It is one of the list bar menus, through this list it is possible to add annotations to the document in the program (Microsoft Word).

- It contains commands that are particularly useful when preparing( academic papers ).

# REFERENCE

---

1- **Table of Contents group**: A table of titles is created for the contents of the document. It serves as an **index** of the contents of the document.

- It also contains

A- ( **Add Text** ) icon through which the current paragraph is inserted into the table.

B- ( **Update Table** ) icon through which the table of contents can be updated, so that the addresses and page numbers are newly added, that is, after the table is created.

# REFERENCE

---

**2- Footnotes group:** It's allowed you to insert footnotes, that places are allocated at the bottom of the page in which the footnote is to be inserted.

It is automatically numbered. It contains:

## A- Insert EndNote :

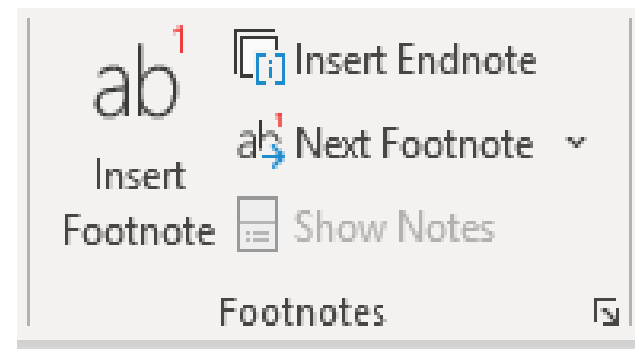

Allows you to place an endnote at the end of a document .

## B- Next Footnote

Used to move between the footnotes of documents

## C- Show Notes

It shows all endnotes and footnotes

# REFERENCE

---

## 3- Citation AND Bibliography

It is the set of sources you used when creating the document, at the end of the index.

### A- Insert Citation:

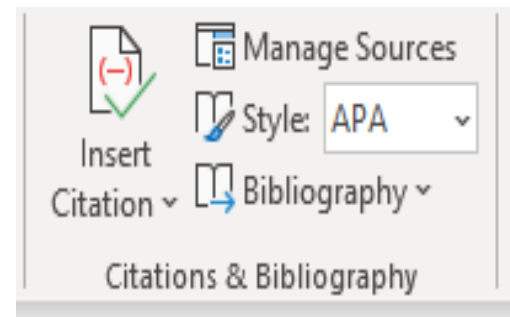

is used to cite a reference, whether an article or a book, to support the text's.

### B- Manage Sources:

Allows the user to show a list of all the references he used in the document.

### C- Style:

You can choose the citation style you used  
APA, MLA, and Chicago pattern.

# REFERENCE

---

## 4- Captions:

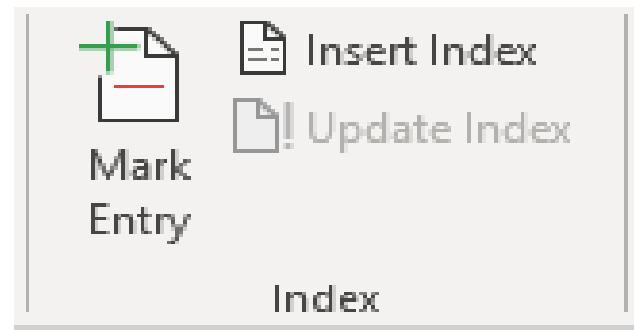

A short text or description of an object in the document that is placed under it to describe it.

- Insert Table of Figures
- Update Table

## 5- Index:

In the index, the topics and terms discussed in the document are listed.
