Microsoft Word 2016

Microsoft Word 2016

Insert Table:

The best way to add a table in your Word 2016 document is to use one of Word's table creation commands. The commands build a custom grid of rows and columns. click the Ribbon's Insert tab. In the Tablets group, the only item is the Table button. Click that button to see the Table menu, as illustrated here.

The best way to make a table in Word is to use the grid on the Table button's menu, as shown in the figure. Follow these steps:

- Click where you want the table in your document.
- Click the Insert tab.
- Click the Table button.

• Drag through the grid to set the desired number of rows and columns.

Computer Application/First Stage

3. Cropping handles will appear on the sides and corners of the image. Click and drag any handle to crop the image

4. To confirm, click the Crop command again. The image will be cropped.

To Crop an image to shape

Optics Department

- 1. Select the image you want to crop, then click the Format tab.
- 2. Click the Crop drop-down arrow. Hover over Crop to Shape, then select the desired shape from the drop-down menu.
- 3. The image will be cropped to the chosen shape.

Computer Application/First Stage

Insert a screenshot or screen clipping

- 1. Open a Word document.
- 2. Select the Insert tab on the ribbon, then click the Screenshot button. Then you will see two options, Available Windows and Screen Clipping.

Under the Available Windows section, it shows thumbnail previews of opened windows on your desktop. If you want to get a screenshot of the available window, just select its thumbnail. Then its screenshot will be displayed in the Word Document.

If you want to manually take a screenshot from the screen, click the Screen Clipping button and then continue with the next steps.

- 3. After the Screen Clipping button is clicked, the Word screen temporarily exists, and a transparent haze covers the whole screen. Navigate to the area where you want to take a screenshot, then press and hold the left mouse button to select and highlight the area. In my example, I select the Windows logo on Windows 10 desktop.
- 4. Release the left mouse button. The selected area on the screen can be captured and displayed in the Word document. Also, the Picture Tools is opened. You can edit the screenshot as your desire.
